## KARA SECOND-STAGE 485

THE ART OF <sup>®</sup>EVOLUTION

- Reduces Energy Costs •
- Optimizes Results •
- Extends Lifetime •

**Individual. Ecological. Financially Efficient**

**The second stage of the KARA COMBI-CUBE series available separately.**

### **I. Space-saving integration of a second filtration-stage**

Complementing the integration INSIDE the standard-box, the KARA SECOND-STAGE 485 provides the possibility to add a high-efficient, space-saving second stage of filtration to your spray-booth **separately behind the first-stage cardboard-cube.**

Metrics of 485 mm x 485 mm x 145 mm (LxWxH) realize the application, following a minimum of adjustments of the spray-booth. Or even non.

Able to be delivered space-saving and flat-lying.

Designed for fast and easy self-assembling, the KARA SECOND-STAGE 485 sets new benchmarks, regarding easy handling and performance.

Available also as KARA SECOND-STAGE LARGE, with a length of 985 mm.

### **II. KARA COMBI-CUBE**

Adapted dimensions of 470 mm x 470 mm x 145 mm (LxWxH) realize the application INSIDE the standard-cube.

Without any adjustments of the spray-booth.

Two options available. First-stage featuring KARA FIN-TECH or KARA SMART-FLOW.

**Individual. Ecological. Financially Efficient.**
